SCRAMBLED ALIEN ENCOUNTER

Unscramble the first set of letters to find out the name of the first alien to appear in the film. Then unscramble the second set to discover what the Men in Black must do to the agent who eavesdrops on the encounter so he won't remember what he saw.

The alien:

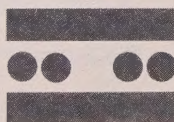

Y I M E K

(A common nickname for a common male name.)

What the MIB must do to the agent:

S A R E E I S H R O M M E Y

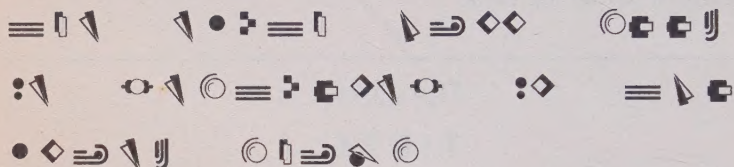

(This will keep him from remembering the alien.)

Answer:

WHAT'S THE DIFFERENCE?

"Press the button!" says Kay. When Jay does, the MIB car transforms into a wall-climbing vehicle. To get past traffic, the car rides on the ceiling of the Midtown Tunnel. But the

car is not the only thing that has changed. Study the picture on page 40. Then look at the picture on page 41. Can you spot ten differences?

FIND THE REAL GALAXY

The Third Galaxy is missing! The Men in Black must find it and return it to the Arquillians before the Earth is destroyed. But the galaxy, which is only about the size of a marble and hangs from the cat's collar, has been mixed up with these other fake galaxies. Help the Men in Black find the real galaxy and save the Earth by spotting the one pendant that is different from all the others.

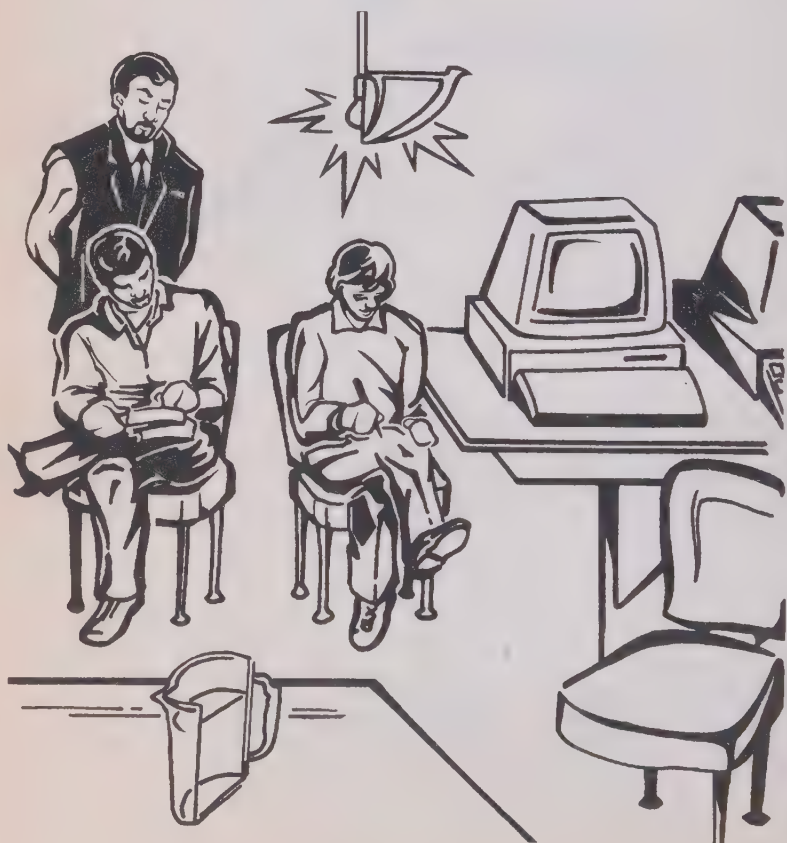

DOUBLE DOT-TO-DOT

A Baltian ship and an Arquillian ship are lying in wait on opposite sides of Earth, ready to destroy our planet. Try to stop the attack by connecting the dots to complete this picture of the two ships.

WHAT'S MISSING?

The Men in Black are looking for “the best of the best.” Recruits from the army, navy, and marines—and Officer James Edwards of the New York City Police Department—have all been brought to MIB headquarters for interviews and testing by MIB agent Zed. But something is wrong. Five things are missing in this picture. Can you find them?

CONFUSING COMMUNICATION

Kay has received a coded message from MIB headquarters telling him the location of the last spaceship on Earth—the ship the Bug hopes to steal. Can you help Kay unscramble the code and find the hidden ship? Circle every fourth word in the message to crack the code!

If you know the time it took last
year for this spaceship to fly fast
on natural material from Earth,
then great speed is needed for
defense at all costs from the end
of the world's supply. It's only
fair to lose coffee grounds.

Answer: _____

MIB PICTURE SEARCH

Four MIB agents—Kay, Jay, Zed, and Elle—are on an important mission. Help them by circling the four agents in the picture block below—but only when they appear in the exact order shown. Search up, down, left, right, and diagonally.
